¿QUIENES SOMOS?

Esto empezó como un proyecto personal en el que la pasión por los zapatos y la experiencia de haber trabajado varios años en el sector nos empujó a crear algo en lo que creíamos verdaderamente: Wedding PADÜ.

FABRICACIÓN ARTESANAL

Nuestros zapatos están fabricados en España, uno a uno, por manos artesanas que entienden la piel como un lenguaje. Utilizamos solo piel de primera calidad. No hay prisas. No hay atajos. Cada par es una pieza que nace para acompañarte en tu historia.

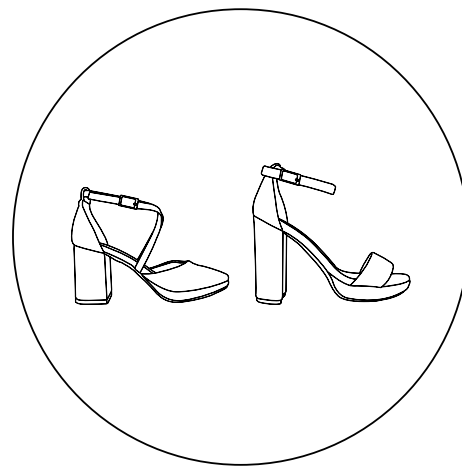

NO SON SOLO ZAPATOS

En PADÜ cada modelo nace con la intención de ser especial. No producimos en masa, sino en pequeñas series cuidadosamente pensadas, lo que convierte cada par en una pieza exclusiva y difícil de repetir.

¿CÓMO PERSONALIZAR TUS PADÜ?

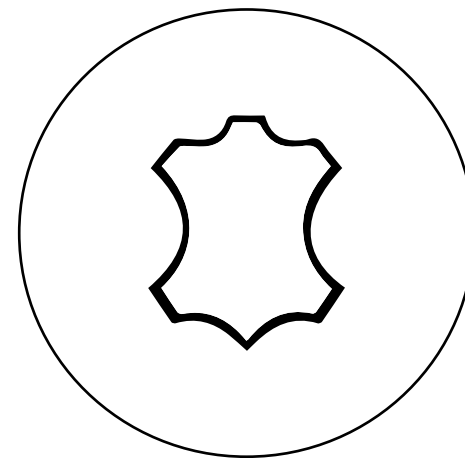

Diseñemos juntas los zapatos de tus sueños. Haremos todo el proceso de la mano, asesorándote y acompañándote en todo momento y el resultado será sencillamente espectacular.
Aquí te explicamos cómo funciona PADÜ

ELIGE EL MODELO

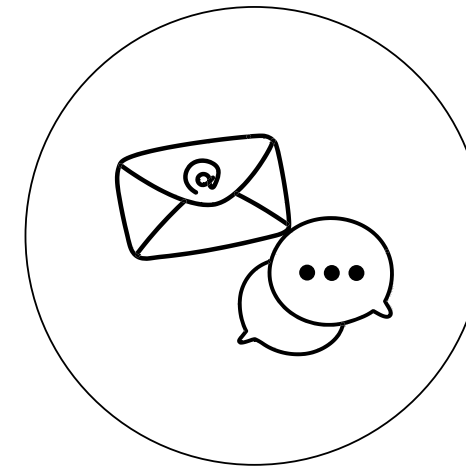

Elige el modelo que quieras personalizar y sus elementos: Sandalia, Tacón Alto, Tacón Bajo, Fino, Ancho... Puedes verlos todos en nuestra página de **PERSONALIZADOS**

ELIGE LOS MATERIALES

Elige los materiales con los que quieras diseñar tus zapatos en nuestro catálogo que encontrarás en **ATELIER**: Ante, Piel, Terciopelo, Glitter, Laminados... Si no encuentras lo que buscas ¡Pregúntanos!

CONTÁCTANOS

Contacta con nosotras a través de **EMAIL** o **WHATSAPP** y cuéntanos cómo quieres tus zapatos personalizados. Te asesoraremos y ayudaremos en todo el proceso.

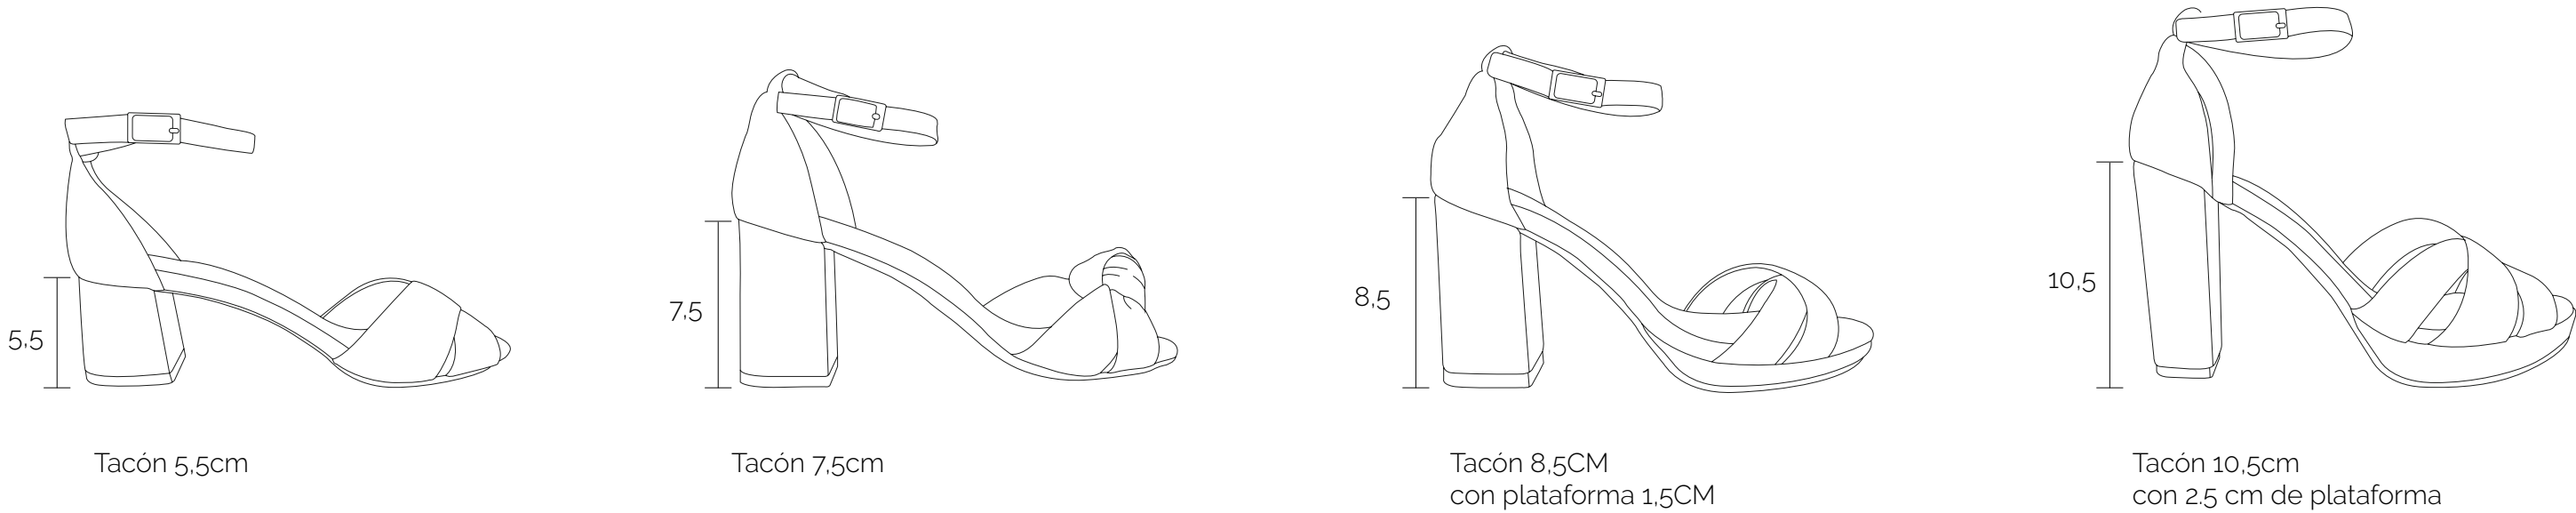

PRUÉBATELOS ANTES

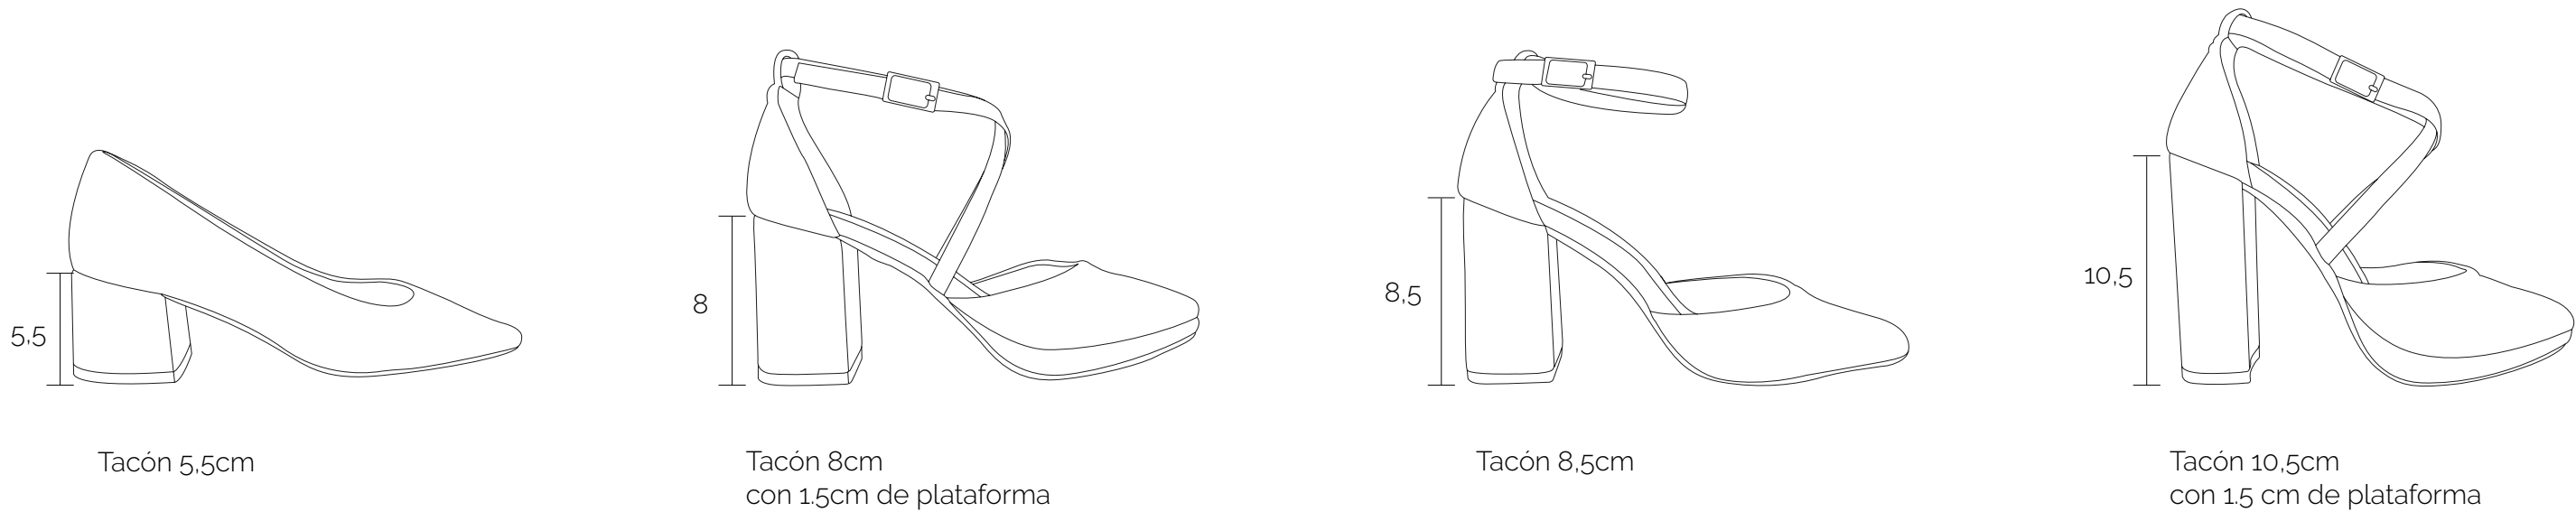

PRUÉBATELOS antes de personalizar los tuyos. Te mandamos un par de prueba a casa junto con los materiales que elijas para que puedas verlos y probar la talla antes de fabricar los tuyos.

Sugerencias para la piel:
Las pieles naturales pueden sufrir una pequeña variación de color respecto a la muestra ya que cada tintada es diferente. Además las pieles en general pueden contener pequeñas marcas del pelo y venas del animal ya que trabajamos con pieles totalmente naturales.
